

# 741 STUD

floor-standing loudspeaker

The 741 STUD is a floor-standing loudspeaker built around control, coherence and engineering-led design. An open-baffle midrange reduces box coloration, while a mass-loaded cabinet keeps bass tight and stable at volume. With a 4-ohm load and a 100W-per-channel rating, it rewards amplification with pedigree.

# Engineered around control

A floor-standing speaker designed as a single, unified system, its industrial design isn't decorative - exposed fasteners, rigid panels, and mass-loaded construction are all part of a deliberate approach to controlling resonance, vibration and energy flow.

*Form follows physics.*

# Open-Baffle Midrange

A 6-inch open-baffle midrange operates without a conventional enclosure, reducing standing waves and box-induced coloration. The result is a cleaner, more natural midband where vocals and instruments sound freer and more lifelike.

*Less box. More truth.*

# 10-inch Woofer, Properly Controlled

The 10-inch woofer operates inside a rigid mass-loaded enclosure built from 17mm MDF and treated with 2mm butyl rubber. This construction suppresses cabinet resonance, keeping bass tight, disciplined and consistent even at higher listening levels.

*Impact, without overhang.*

# Stable Under Load

The rigid, mass-loaded enclosure resists panel flex and vibration as playback levels rise.

This stability preserves imaging, timing and tonal balance - even during dynamic peaks

*Composure at volume.*

## Power & Impedence

With a 4-ohm impedance and a 100-watt per channel power rating, the 741 STUD is designed to be partnered with an amplifier of proven pedigree. The right amplification allows the speaker to deliver scale, control and dynamic headroom without strain.

*Choose your  
amplifier wisely.*

# Two Editions. One Philosophy.

The 741 STUD is offered in two finishes  
Stealth Edition and Bling Edition.

Both share the same acoustic design,  
cabinet construction and voicing. The  
difference is purely aesthetic, paired with  
distinct installation support.

## **Bling Edition**

Gold-plated fasteners  
In-person installation support.

## **Stealth Edition**

Black anodised fasteners  
Video-assisted installation.
